

You are Menna, a slum dweller living in a futuristic world run by corporations and a monstrous AI as they developed to run your city.

The AI is ruthless, brain wiping and commanding anyone who goes against it, even for petty crimes like graffiti.

You are fed up.

- Roguelike
- 3D Top-Down with a Pixel Shader
- Action/Strategy
- Create your loadout
- Choose your strategy
- Strategize your way through the city
- You have only 15 minutes before you
- The AI will learn. Don't do the same t
